

# FUJITSU Cloud Service S5

## Signing up to the platform

This guide describes the process for signing up to the FUJITSU Cloud Service S5

### Introduction

The FUJITSU Cloud Service S5 is a secure and trusted Community Cloud which is restricted to registered companies, charities and public sector organisations. To ensure the security of the platform for our subscribers, registration for full access is in two stages:

#### Stage one - The online application

- Once this stage has been completed the subscriber will be able to login to the FUJITSU Cloud Service S5 (<http://globalcloud.fujitsu.com.au>) with the UserID and Password specified in the online application.
- Use of the platform at this stage is limited to Design & Estimate. Using our simple and intuitive Design Studio you can create Virtual Systems and understand any associated costs but you will not be able to deploy the Virtual System until Stage two has been completed.

#### Stage two - Completion of the Subscriber Form

- All Account Administrators are required to provide certain information to validate the organisation they belong to.
- An email from [globalcloud@au.fujitsu.com](mailto:globalcloud@au.fujitsu.com) with an attached Subscriber Form will be emailed. Please follow the instructions within this email.
- Depending on the information provided in stage one, full access to the platform may be provided for a limited period. This will be stated in the email from Global Cloud Finance.
- The completed form must be returned within five working days to ensure your account is fully activated. When this has been returned, our Global Service Desk is authorised to support you with any queries you may have.
- Failure to return the form within five working days may result in your account being terminated.

#### Stage one - The online application

1. Users access the Service Portal from their PC's web browser using the following URL that takes them to the Home Page - <http://globalcloud.fujitsu.com.au>

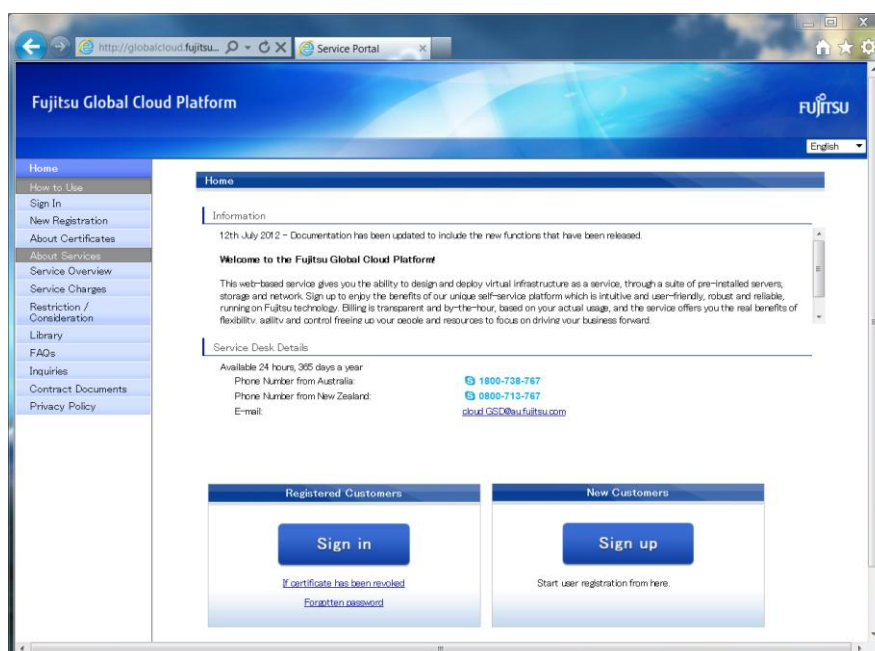

Figure 1 Home page of the FUJITSU Cloud Service S5 website

2. Click the "Sign up" button.

Figure 2 Sign Up To FUJITSU Cloud Service S5

3. On the following screen, click the "Register as a Service Subscriber" button.

Figure 3 Begin Registration

4. Enter an e-mail address, agree to the terms and click "Apply".

**Registering as a Service Subscriber**

Confirm the Terms of Use | Receive Guidance E-mail | Enter Customer Information | Confirm Information | Complete Registration

From this page you can perform the registration procedure for service subscribers. Please proceed according to the instructions on each page.

You must agree to all of the following conditions in order to use this service. \* Indicates required information.

E-mail Address *	<input type="text"/>	Enter an e-mail address to be used for guidance and temporary password issuance during the registration procedure.
E-mail Address (Confirmation) *	<input type="text"/>	For confirmation, enter the e-mail address again.

"Fujitsu Global Cloud Platform Service" Subscriber Agreement

The Terms and Conditions are identified in the User Agreement. You can access this agreement by clicking on the Contract Documents button in the left menu.

You must download and complete this document and submit it to Fujitsu, along with a Credit Application if you are a new Fujitsu client.

By clicking "I agree to the terms described above," you are indicating that you have read and understand the Terms and Conditions, and that you will sign and send to Fujitsu the User Agreement in order to complete your registration and activation.

Further instructions will be provided in the email you receive containing your contract # and User ID. Activation of that User ID is contingent upon Fujitsu's receipt of the User Agreement.

I agree to the terms described above

Agreement items on the Catch-All Control

I do not develop (\*2) arms such as nuclear weapons (\*1). And I have not been involved in such activities.

I will not use the technical information provided (including software) for any of the following purposes.

(1) Development (\*2) of nuclear weapons (\*1)

(2) Development of nuclear fuel materials/nuclear source materials, studies of nuclear fusion, development of nuclear reactors or components/related equipment, manufacturing of heavy water, processing/reprocessing of nuclear fuel materials/nuclear source materials

(3) Development/manufacturing of chemical materials commissioned by armies/security agencies, development of microbes/toxins, development of rockets/unmanned drones, or space research (including astronomy).

I will not use the technical information provided (including software) for any military application (\*3).

(\*1) The following items are included in addition to nuclear weapons:  
 \* Chemical formulations for military purposes  
 \* Bacteria formulations for military purposes  
 \* Equipment for spraying the formulations listed above  
 \* Rockets or unmanned drones that have a range of 300 or more than kilometers, that have the capability to convey the formulations listed above  
 (\*2) Includes developing, manufacturing, using, and/or storing.  
 (\*3) Includes development, manufacturing, and/or use of arms (except weapons of mass-destruction).

Back | **Apply**

Figure 4 Confirm Acceptance of Terms & Conditions

Registration instructions and important information about continuing the registration process are sent to the e-mail address provided, so please ensure that it is a valid e-mail address.

5. A confirmation e-mail is sent to the address provided

Figure 5 Confirmation

6. The mail contains a Temporary Password and a link to verify the account. Copy the Password and click the link

Temporary Password: MQg1ioTFO8V0wrqd

<https://globalcloud.fujitsu.com.au/portals/ctrl/CRegAuth/ckCEJWZU>

Figure 6 Temporary Password

Note: If Users do not carry out the registration within 24 hours, the application becomes invalid, and you will need to start again at Step 1.

7. Enter the Temporary Password and click the "Continue Registration" button.

E-mail Address (Confirmation)*	john.doe@samplecompany.com.au	For confirmation, enter the e-mail address again.
Telephone Number*	012-3456789	Example) 00-1234-5678

Figure 9 Confirm Registration Details

If corrections are necessary, click the "Back" button and fix the information.

10. On completion, an e-mail containing additional registration information is sent to the registered e-mail address.

**Subscriber Registration**

Confirm the Terms of Use → Receive Guidance E-mail → Enter Customer Information → Confirm Information → **Complete Registration**

Your registration as a service subscriber is complete.  
You can now use the service by signing in.  
Your registration details have been e-mailed to you.  
Please store this e-mail carefully, as it includes important information, necessary when adding resource administrators.

Sign in

Sign in Now

Figure 10 Online application Completed

An e-mail containing your registration information is sent to the registered e-mail address. This e-mail also contains information regarding your contract to complete the Subscriber Form (for new customers) which will be sent separately. Please ensure that this information is kept secure.

Until the account has been activated by the Global Cloud Team access to the platform is limited to Design & Estimate.

**Login with ID/password**

1. Click "Sign in" button (as detailed in previous section or by going to <http://globalcloud.fujitsu.com.au>)
2. Enter the registered information (User ID and password), and then click "Sign in" button.

Figure 11 Login with User ID and Password

3. Initial login prior to account activation

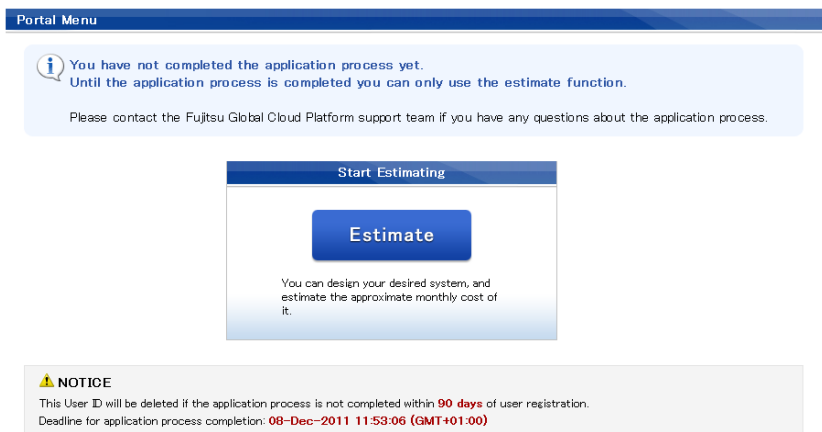

Figure 12 Estimate

After login is completed, users can use the powerful design tools to set up a virtual system of servers, storage and connectivity, obtaining an estimate of the monthly service charges for the specified system as it is being built.

### Stage two - Completion of the subscriber form

A subscriber form will be sent to the Account Administrator's email address from the Fujitsu Global Cloud Finance Team. It is a mandatory requirement that the form is completed and returned to ensure the account is fully activated.

Once the account has been fully activated by the Fujitsu Global Cloud Team, the Account Administrator will be asked to create a certificate, after which they can create and deploy virtual systems, add additional Resource Controllers and have full access to the platform.
